 Biological controls that utilize natural predation, parasitism or other natural mechanisms, is an environmentally friendly alternative to chemical pesticides. Chemical pesticide methods are becoming less readily available due to increasing resistance problems and the prohibition of some substances. This book addresses the challenges of insufficient information and imperfectly understood regulatory processes in using biopesticides. It takes an interdisciplinary approach providing internationally comparative analyses on the registration of biopesticides and debates future biopesticide practices.

**Audience:**
Researchers, students and professionals in biological sciences and crop protection.

**Contents:**
1. Introduction
2. The Interdisciplinary Challenge
3. The Economics of Making the Switch in Technologies
4. Microbial Control Agents: The Broad Context
5. The Regulation of Biopesticides: an International Analysis
6. Policy Networks and Regulatory Innovation
7. Retail governance
8. Conclusions: Pest management: an overview
Microbes, including fungi, are always adapting to different environmental conditions and phytopathologists are continually faced with the management of new diseases and the resurgence of old ones. Amidst growing concerns about the environment and food security, the development of management strategies that minimize crop losses and promote sustainable agriculture is increasingly more important.

**Management of Fungal Plant Pathogens** presents a review of research into pathogenic fungi in a diverse selection of economically important crops, including fruits and cereals. The establishment and management of fungal plant disease using conventional and ecofriendly methods is discussed with an emphasis on the use of microorganisms and biotechnology. Chapters also examine the role of microbes in growth promotion, bioprotectors and bioremediators and presents practical strategies for using microbes as well as botanicals in sustainable agriculture.

**Audience:**
Students, researchers and extension workers in biology and plant pathology.

**ORDER FORM**

Yes I would like to order the following copies of:

- ☐ Biopesticides
  ISBN: 9781845933597
- ☐ Management of Fungal Plant Pathogens
  ISBN: 9781845936037

**Delivery address** (PLEASE USE BLOCK CAPITALS THROUGHOUT)

**Payment Details**

My Ref. No. (optional)

Please charge my credit card. ☐ Visa ☐ Mastercard ☐ Delta ☐ Switch/Maestro – Issue no. ☐ Start date: ☐ / ☐ / 

Card no. ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ Expiry date: ☐ / ☐ / 

Security code ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐

Name on card ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐ ☐

Dilling address (if different from above)

Signature Date

Please complete this form and post to the address below. Alternatively you may email or phone to place your order.

**P&P:** For orders in the UK £3.50 for the first book and £1.10 thereafter (10 max). For pre-paid orders in Western Europe please add £5.00/€6.50 and £1.50/€2.00 thereafter (max 10). For orders not pre-paid, P&P will be charged according to the weight of the book.

P&P for the rest of the world please add shipping fee of £7.50/€10.00/€14.25 for the first book and £2.50/€3.80 thereafter.
